ABOUT PAAPAM

The Pakistan Association of Automotive Parts & Accessories Manufacturers (PAAPAM) is the representative body of the Pakistan Auto Parts Industry. PAAPAM's active involvement in trade promotion, technology up-gradation, quality enhancement and collection and dissemination of information has made it a vital catalyst for this industry's development. The Association's other activities include participation at international trade fairs, sending trade delegations overseas and creating publications on various subjects related to the automotive industry.

PAAPAM is represented on a number of panels, committees and councils of the Government of Pakistan through which it helps in the formulation of policies pertaining to the Pakistan Automotive Industry. It is a member of the Federation of Pakistan Chamber of Commerce & Industry (FPCCI).

PAAPAM represents over 350+ companies, whose production forms a majority of the total auto component output in the organised sector. In the domestic market, these companies supply components to vehicle manufacturers, Tier-1 suppliers, state transport undertaking, defence establishments, railways and even to the replacement market.

A variety of components are being exported to OEMs and aftermarket worldwide. Principle export items include replacement parts, tractor parts, motorcycle parts, piston rings, gaskets, engine valves, fuel pump nozzles, brake assemblies & bearings, clutch facings, head lamps, auto bulbs & halogen bulbs, spark plugs and body parts.

WELCOME TO PAAPAM 2025

Mr. Usman Malik

Chairman, PAAPAM

With immense pleasure, I once again would like to welcome Pakistan and the international auto industry to the 20th edition of the Pakistan Auto Show 2025. PAAPAM has been striving year after year to attain a high level of expertise and bring to Pakistan and its exhibitors a world-class expo. We have expanded our product profiles and sponsorship opportunities in line with the growing demands of our valuable exhibitors and sponsors, and this year I am more than excited with the offerings that we bring to the show this time around. This PAPS annual event has provided a strong platform for introducing Pakistan's Automobile Industry to the world. Every year PAPS showcases the engineering achievements of Pakistan's auto industry and highlights the fact that Pakistan is one of those fortunate countries that has a vibrant automobile manufacturing industry.

I assure you that, given the promising environment, the automobile industry will flourish and contribute to the country's economic growth and development by creating jobs and raise revenues through increased growth of the industry. PAAPAM is constantly striving to do better, and with your support, feedback and participation, I have no doubt that the Pakistan Auto Show 2025 will be perhaps the biggest expo in Pakistan.

WELCOME TO PAAPAM 2025

Mr. Shehryar Qadir

Senior Vice Chairman, PAAPAM

The Pakistan Auto Show 2025 is an ideal platform for local players in the industrial sector to showcase their products and services to larger markets. This will also groom them to market their products and services efficiently and effectively, both in local and international markets. I am really grateful to the Auto Engineering Family to provide me with this opportunity of steering the association as the Vice Chairman. I am happy and pleased to have this opportunity and look forward to the challenges ahead. We are lucky to have very committed Management Committee and Staff. Working together, we will surely achieve success. I personally would like to invite the entire automobile sector to be a part of this show, not only for the development of your business but also for the growth of the auto industry, and prosperity of Pakistan.

I look forward to seeing you at the Pakistan Auto Show 2025.

WELCOME TO PAAPAM 2025

Zain Shariq

Convener, PAPS

I welcome you all to Pakistan Auto Show 2025, which aims to foster and develop inter industry trade and take Pakistan towards a new era of engineering and industrial synergy.

We hope this show will allow our visitors and exhibitors to broaden their business scope and customer base, as well as inform, update and delight the visitors with the possibilities of Pakistani engineering capabilities. In this show we aim to bring together all the engineering related value adders in one place in a collaborative environment so that opportunities for the sectors can be discovered and harvested.

I look forward to seeing you at PAPS 2025.

E: info@toyota-indus.com

W: www.toyota-indus.com

A: Plot No. N.W.Z/1/P-1, Port Qasim Authority, Karachi-Pakistan

Company Profile:

Indus Motor Company (IMC) was established in 1989 as a joint venture between the House of Habib, Toyota Motor Corporation (TMC), and Toyota Tsusho Corporation (TTC) of Japan. Since its inception, IMC has been a leader in Pakistan's automotive industry, manufacturing and marketing Toyota vehicles across the country. Its product range includes the Toyota Corolla and Yaris in the passenger car segment, Hilux in the light commercial vehicle segment, Fortuner in the SUV category, and the locally manufactured Corolla Cross Hybrid Electric Vehicle (HEV) — Pakistan's first hybrid car with the highest localized content

Located on a 109.5-acre site at Port Qasim, Karachi, IMC operates a nationwide network of 58 dealerships, providing sales, service, and aftersales support. Over the past 35 years, IMC has sold over 1.2 million vehicles, expanding its daily production capacity from 20 units in 1993 to 288 units today. The company employs over 3,000 people and prioritizes training, innovation, and a culture of teamwork. IMC also supports Pakistan's economy by developing 53 local vendors, creating thousands of jobs, and exporting vehicles like the Corolla Cross, Hilux, and Fortuner to Oceanic countries — showcasing Pakistan's growing automotive manufacturing potential globally.

Company Profile:

Driving Forward: MG Pakistan's Five-Year Journey

Five years ago, MG Pakistan began a bold journey — not just to introduce cars, but to redefine mobility itself. Our vision was simple: to bring innovation, comfort, and confidence to every drive, and to shape how Pakistan moves toward the future.

Rooted in nearly a century of global heritage, MG's story in Pakistan is proudly local — built on the aspirations and resilience of our people. Each milestone we've achieved reflects the trust and passion of families, professionals, and enthusiasts who chose MG as their partner in progress.

Over these five years, we've brought advanced global technology, safety, and design to Pakistani roads at accessible value. We've encouraged conversations about electric and sustainable mobility, strengthened after-sales care, and expanded our nationwide dealership network. Because for us, trust is not earned at the point of purchase — it's built every day after.

As Pakistan's automotive landscape evolves, driven by a new generation that values sustainability and smarter connectivity, MG is proud to lead with purpose and responsibility.

Looking ahead, our mission remains clear: to raise mobility standards, expand choice, and shape a cleaner, more intelligent future for all.

Together, we're not just driving forward — we're redefining what it means to move.

Nishat Group Brings Omoda & Jaecoo to Pakistan

Nishat Group, one of Pakistan's leading business conglomerates, continues to shape the nation's economy through its diverse ventures in textiles, cement, banking, insurance, power, real estate, hospitality, agriculture, aviation, and automotive. The introduction of Omoda & Jaecoo marks another milestone in the Group's vision to bring world-class mobility solutions to Pakistan.

Omoda & Jaecoo are redefining intelligent and electrified mobility with cutting-edge engineering, distinctive design, and a strong focus on sustainability. Inspired by the global LOHAS philosophy, the brands aim to create smarter, more connected lifestyles. Headquartered in Wuhu, China, Omoda & Jaecoo operate in 44 countries, including major markets in Latin America, the Middle East, and South East Asia.

Both brands are part of the Chery Group, a global automotive leader with operations in over 110 countries, producing more than 13 million vehicles and exporting 5.6 million units worldwide. In 2025, Chery ranked No. 233 on the Fortune Global 500, becoming the first Chinese automaker to exceed five million exports.

Through an MoU with MCB Bank Limited, Nishat Group offers exclusive financing for Omoda & Jaecoo customers, featuring competitive rates, insurance benefits, and priority delivery – driving Pakistan toward a smarter, cleaner mobility future.

Company Profile:

Thal Boshoku Pakistan (Private) Limited (TBPK), established in 2013 as a joint venture between Thal Limited, Toyota Boshoku, and Toyota Tsusho Corporation, was created to expand Thal's automotive portfolio and meet the rising demand for high-quality parts in Pakistan. Combining local capability with global expertise, TBPK manufactures seat components and air cleaners that meet international standards.

From the start, the company has focused on developing a skilled workforce through continuous training, supported by Toyota Boshoku Japan's technical knowledge and global best practices. A major milestone was the opening of its new plant in 2019, enabling complete seat manufacturing for the Toyota Yaris. The facility features advanced processes such as robotic welding, flame lamination, PU foaming, and sewing, ensuring precision and consistent quality.

By localizing production and reducing dependency on imports, TBPK strengthens Pakistan's automotive sector. With ongoing improvement and expansion, the company aims to further grow its product range and customer base.

Petrol Solution is a company established with a vision and a virtual concept of providing fuel to varied businesses and sectors. The company carries an experience of over a decade in the service sector with client base ranging from International and Local Trade Associations, Large Corporates to Government Institutions etc.

Pakistan Auto Show “A Game Changer”

Event management is one of our premier business division. The company has delivered multiple of corporate events with Pakistan Auto Show “PAPS” as one of our front running events. It is now currently being ranked one of the top most events of Pakistan. We have surely set our footprints in organizing all of our shows as per the international standards. Some of our other exclusive events include:

- Pakistan Women Festival
- EMAAR Road Shows etc.

High End Business Applications “Falcon Eye”

Our business application division at present is by-passing all of its performance targets. One of our top of the line application is “Falcon Association Management System”. That has been specifically designed to provide a marketing and operational edge for all of the associations (including its members) working either at the local or international level. After effective penetration in the local sector we have gone beyond borders by signing multiple of contracts with some of the renowned international associations. In addition, Event Management System, School Management System, Learning Management System, Enterprise Resource Planning are some of our other top-ranking applications.

Business Planning & Consultancy: We the Team Petrol Solution not only provides the web solution rather our enterprise provides a complete business planning to all of our customer after true understanding of their needs and requirements. Onwards the strategies are being formulated to provide a marketing leverage to our valued clientele.

Web Designing & Value-Added Services:

Furthermore, Web Designing and development was surely has been the roots of our organization and through the period of time we have gained valuable expertise in this area. Petrol Solution also provides value added services to its clientele to live up to the concept of complete customer satisfaction.

Petrol Solution is dedicated to adding value to clients' businesses through the use of technology. We achieve this through our unique combination of skills, and our focus on exceptional client service.

Falcon Association Management System “Falcon Eye”

Falcon Association Management System “Falcon AMS” is a system specifically designed to cater to the needs of any trade association. It will surely act as a cornerstone for any association working around the Globe. The system provides the competitive edge and will bring in synergies in the existing trade structure of the associations. It is one of the most innovative system that has ever been developed anywhere in the world.

The system will highlight the business strength of any association and its members in terms of its products, technologies, customer penetration and other related factors. The system will allow its users to have a global networking having a positive impact on their profitability.

You all would be delighted to know that the system embeds a Falcon Search Engine that would be the first ever industrial search engine of the world. Now searching with respect to Product Category, technology, HS Codes or Certification is no more a worry. At present no global search engine provides that. Efficient query-based system would be also linked with your search result to facilitate any of the mass queries being directed to the relevant customers.

Historically there has been a substantive gap between association and its members when we talk in terms of business generation and protection of the industry as a whole. Through Falcon AMS any association would be able to reach its target of effective global presence and sheltering business generation for their members. It is a distributed resource system through which any member can strengthened its profile and can explore potential synergistic opportunities.

Falcon AMS has already being deployed at some of the renowned association operating in Pakistan. PAAPAM has always been our learning curve and after the successful deployment at PAAPAM the system was deployed at Towel Manufacturers Association, Pakistan Chemical Manufacturers Association and The Federation of Pakistan Chambers of Commerce & Industry. We feel pride being a brand ambassador of Pakistan by executing contracts with some of the renowned international association including China Council for Promotion of International Trade and Turkish Composites Manufacturers Association. Falcon AMS surely have a vision and determination to make its impact towards global business networking.

Falcon AMS is surely a breath of fresh air for Pakistan in today's modern economic structure. The system has been completely developed within Pakistan by some of the most talented human resource of the country. The system will surely lay the foundation of applying modern techniques of doing business. At a macroeconomic level, through Falcon AMS we can definitely fulfill our country's objectives of increasing exports, trade surplus, untapped international markets, foreign direct investments and foreign currency reserves.
